

HSC ASSESSMENT TASK NOTIFICATION

SUBJECT:	Food Technology
TEACHER:	M. Smith
UNIT:	Contemporary Nutrition Issues
VALUE:	20%
DATE NOTIFIED:	18/8/2020 TERM 3 WEEK 5 B
DATE DUE:	3/9/2020 TERM 3 WEEK 7B THURSDAY (IN CLASS PERIOD 2)

This is a prepared piece of writing which involves you researching information about **ONE** group of people in Australia and developing **ONE** strategy that will promote their optimum nutrition. You will then answer the question below during class (50minutes) under examination conditions.

Preparation for the Task

1. Investigate the health of **ONE** group in Australia.
2. Develop **ONE** strategy that could be used to promote optimum health through good nutrition for this group.

You may take one page of hand-written dot points in to assist you in the writing of your response.

Question

- a) Identify **ONE** group in Australia and report on their overall health.*
- b) Outline **ONE** strategy that could be used to promote optimum health through good nutrition for this group.*

Targeted Outcomes

- H2.1 evaluates the relationship between food, its production, consumption, promotion and health
- H3.2 independently investigates contemporary nutrition issues
- H5.1 develops, realises and evaluates solutions for a range of food situations.

Marking Criteria – For Contemporary Nutrition Issues - ONE group in Australia	
<ul style="list-style-type: none"> demonstrates extensive knowledge and understanding of the relationship between food, its production, consumption, promotion and health demonstrates superior research skills while independently investigating contemporary nutrition issues demonstrates extensive knowledge and understanding when outlining one strategy to promote optimum health of one group in Australia demonstrates superior understanding when reporting on contemporary nutrition issues of one group in Australia 	14-15
<ul style="list-style-type: none"> demonstrates thorough knowledge and understanding of the relationship between food, its production, consumption, promotion and health demonstrates thorough research skills while independently investigating contemporary nutrition issues demonstrates accomplished understanding when outlining one strategy to promote optimum health of one group in Australia demonstrates thorough understanding when reporting on contemporary nutrition issues of one group in Australia 	12-13
<ul style="list-style-type: none"> demonstrates satisfactory knowledge and understanding of the relationship between food, its production, consumption, promotion and health demonstrates satisfactory research skills while independently investigating contemporary nutrition issues demonstrates satisfactory understanding when outlining one strategy to promote optimum health of one group in Australia demonstrates satisfactory understanding when reporting on contemporary nutrition issues of one group in Australia 	7 - 11
<ul style="list-style-type: none"> demonstrates a basic knowledge and understanding of the relationship between food, its production, consumption, promotion and health demonstrates basic research skills while independently investigating contemporary nutrition issues demonstrates basic understanding when outlining one strategy to promote optimum health of one group in Australia demonstrates basic understanding when reporting on contemporary nutrition issues of one group in Australia 	5 - 6
<ul style="list-style-type: none"> demonstrates elementary knowledge and understanding of the relationship between food, its production, consumption, promotion and health demonstrates elementary research skills while independently investigating contemporary nutrition issues demonstrates elementary understanding when outlining one strategy to promote optimum health of one group in Australia demonstrates elementary understanding when reporting on contemporary nutrition issues of one group in Australia 	0 - 4
